## **PURCHASING OF CLUB RACING LICENSES FOR EVENTS**

It is the policy of Australian Auto-Sport Alliance Pty. Ltd. (AASA) that all AASA Club Racing licences must be purchased directly from AASA, prior to an event taking place.

Licenses are not to be purchased on the day. This policy has been put in place to overcome the problem that has occurred in that some Clubs have sold licenses and not forwarded the information and payment to AASA following the event taking place.

Competitors who have purchased licenses at these events that have not been forwarded to AASA by the organisers are therefore unable to compete in other events, as there is no record of purchase on the AASA database and the license has not been processed and sent to the competitor.

Licence applications can be downloaded from [www.australianautosportalliance.com](http://www.australianautosportalliance.com) or ring (03) 5766 4235 for an application to be emailed for completion and returned to AASA for processing prior to an event.
